THE 10th ALGERIA BEST5 EXPO

A HUB FOR INNOVATION AND GROWTH IN CONSTRUCTION INDUSTRY

Organized by Elan Expo, the 10th Algeria Best 5 Expo International Construction and Building Materials and Technologies Exhibition will be held from 25-28 November 2024 at the Safex Expo Center, Algeria.

THE PIONEER CONSTRUCTION SHOW OF WEST AFRICA IS READY FOR ITS 10TH EDITION!

Elan Expo proudly announces the 10th Algeria Best5 Show, a landmark event that has solidified its position as the premier meeting point for industry leaders, innovators, and major brands in the building, construction, and design sectors.

ALGERIA'S CONSTRUCTION LANDSCAPE: A BRIGHT FUTURE

Algeria's strategic location at the crossroads of Europe and Africa not only enhances its attractiveness as a hub for international exhibitions but also provides access to diverse markets. The government's significant investment in infrastructure ensures that venues are equipped to host large-scale events effectively, providing an ideal platform for showcasing products and services.

The construction industry in Algeria is experiencing significant growth, with forecasts indicating an annual growth rate of 4.2% between 2024 and 2027. This growth is supported by infrastructure projects that aim to reshape urban landscapes and improve living standards. Notable projects include the New City of Boughezoul, designed to accommodate around 400,000 inhabitants, and extensive expansions of transportation networks such as the East-West Highway and the Algiers Metro. Furthermore, Algeria is making strides in renewable energy, with plans to invest up to \$42 billion in its energy sector over the next five years, signaling a commitment to sustainable development.

However, despite these promising developments, challenges remain that make it critical for international companies to come to step into the industry. The construction sector faces systematic challenges that can complicate project approvals and developments, alongside existing infrastructure that requires upgrades to meet modern standards. There is also a notable shortage of skilled labor, which can delay project timelines. Additionally, supply chain disruptions coming generally from economical conditions can restrict convenient material supply

By participating in the Algeria Construction Show, companies can effectively navigate these challenges while capitalizing on the opportunities presented by this growing market. The event serves as a vital platform for networking with key stakeholders, including government officials and industry leaders, allowing exhibitors to gain valuable insights into local market dynamics and emerging trends. Companies can showcase innovative solutions that address specific local challenges and explore collaborative ventures with local firms to enhance their market presence.

Moreover, exhibiting at this prominent event positions companies as leaders in a rapidly evolving sector while contributing meaningfully to Algeria's development goals. The Algeria Construction Show is not just an exhibition; it is an opportunity to be part of a transformative journey in one of Africa's most promising markets.

A PROVEN PROMISING SUCCESS IN A THRIVING SECTOR

Mr. Süer Ay, General Manager of Elan Expo, expressed enthusiasm about this year's event: "The Algeria Construction Show has continued to thrive as a vital platform for networking and collaboration. This year's edition will not only be attractive but also incredibly successful, reflecting the growing dynamism of Algeria's construction sector."
